Dear Students

As we prepare for the upcoming exams, i wish to share with you the following FIVE points for your consideration.

Fr.S.Arul Rayan, S.J.

01

Create a Realistic Study Schedule

- **Why:** A well-structured schedule keeps you on track and helps you manage your time effectively. Allocate time for each subject based on its difficulty and your proficiency.
- **How:** Break down topics into smaller chunks. For example, tackle one chapter per session. Leave room for breaks and ensure to review daily to reinforce your memory.

02

Practice Previous Year Papers & Mock Tests

- **Why:** Practicing old question papers gives you an understanding of the exam pattern, question types, and time management. It also builds confidence.
- **How:** Set aside time each week to complete mock exams under timed conditions. Review your mistakes to understand where you need improvement.

03

Active Stress Management

- **Why:** Stress can negatively affect focus and performance. Managing stress will keep you calm and improve your productivity.
- **How:** Incorporate short breaks, deep breathing exercises, or quick workouts into your routine. Adequate sleep (7-8 hours) is essential for mental clarity. Also, practice mindfulness or meditation to reduce anxiety.

04

Focus on Conceptual Understanding

- **Why:** Deep understanding is more effective than rote memorization. It helps you apply knowledge to solve complex problems, improving long-term retention.
- **How:** Instead of memorizing, try teaching the concept to someone else, or use diagrams and charts to visualize complex ideas. Solve problems, and don't hesitate to ask your teacher or peers for clarification when in doubt.

05

Stay Positive & Consistent

- **Why:** A positive attitude can help you overcome obstacles and maintain motivation throughout the preparation period. Consistency is key to success.
- **How:** Break big goals into smaller, achievable milestones. Reward yourself when you hit these goals. Stay disciplined and avoid procrastination—every day of consistent effort counts!

May God bless us all

૧૨ ફેબ્રુઆરી ૨૦૨૦, મારો અને મારી સાથેના સહપાઠીઓનો યાદગાર દિવસ.

આ દિવસ એ હું ખુશ પણ હતી અને દુઃખી પણ હતી. ૧૪ વર્ષ કે જેણે મારા અને મારા સહપાઠીઓના જીવનની રૂપરેખા કંડારી. નર્સરી થી લઈને ૧૨માં ધોરણ સુધીની યાદગાર સફર કે જેને હું મારા જીવન નો golden period કહું છું. હું સ્તુતિ ઓઝા C.U.Shah Institute Of Science માંથી Bachelor's Of Science - Microbiology પૂર્ણ કર્યું છે. ત્યારબાદ મારો હંમેશા રચનાત્મક ક્ષેત્ર માં ખુબ જ રસ રહ્યો હોવાથી મેં Graphic Designing નો કોર્સ કરેલ છે. અને અત્યારે ગુજરાત ની નંબર-૧ ઓનલાઇન કોમ્પિટિટિવ એકઝામ માટેની સંસ્થા WebSankul-Gandhinagar શાખા ખાતે કાર્યરત છું.

"Teacher's and Parent's are two important pillars in your life..."

મારુ માનવું છે કે કોઈ પણ વ્યક્તિના જીવનમાં શાળાનું મહત્વ ખુબ જ વધારે હોય છે. બાળપણમાં શીખેલા જીવનના પાઠોથી જ આખા જીવનનું ઘડતર થતું હોય છે. એમાં પણ Xavier's school ના તમામ શિક્ષકો દ્વારા અપાતા માર્ગદર્શનથી તો કેટલાય વિદ્યાર્થીઓએ મહારથ હાંસલ કરેલ છે. હું મારી જાતને ખુબ જ નસીબદાર માનું છું કે મારા તમામ શિક્ષકો દ્વારા મને જે શૈક્ષણિક અને વાસ્તવિક માર્ગદર્શન મળ્યું છે તે અનેરું છે.

આ ઉપરાંત મારાં વ્યક્તિત્વ અને આત્મવિશ્વાસ માટે શાળાનો ખુબ જ મોટો ફાળો છે. આટલું વિશાળ કેમ્પસ અને આનંદમય વાતાવરણ માત્ર Xavier's સ્કુલ પાસે જ હોઈ શકે. શિક્ષણ ઉપરાંત ઈતર પ્રવૃત્તિઓ જેમકે સ્પોર્ટ્સ ડે, annual day, પ્રેયર ડાન્સ, Quest માં Debate, વક્તૃત્વ સ્પર્ધા તે બધામાં હું ખુબ જ ઉત્સાહથી ભાગ લેતી હતી. શાળા અને પરિવાર દ્વારા ભણતર સાથે હંમેશા ગમતી પ્રવૃત્તિ માં કાર્યરત

રહેવાનું પ્રોત્સાહન સતત મળતું આવ્યું છે અને તેથી જ હું ભરતનાટ્યમ પણ ડાન્સર છું. ત્યારે તો તે મારા માટે માત્ર એક પ્રવૃત્તિ હતી પણ અત્યારે સમજાય છે કે તેનું મહત્વ મારા જીવનના ઘડતરમાં કેટલું વધુ છે. આજે શિક્ષણ એ ખુબ જ મોટો વ્યાપાર માત્ર બની ગયો છે ત્યારે મને મારી શાળા અને શિક્ષકો યાદ આવે છે કે જેઓ સાચી કાર્યનિષ્ઠાથી અમને સંસ્કાર, શિષ્ટ અને જીવન જીવવાની શૈલી શીખવી ગયા. આનંદ છે મને આવા શિક્ષકો મેળવીને કેમ કે, "શિક્ષકો જ યુવાધન ને સાચી દિશા અને માર્ગ બતાવે છે"

"Optimism is the faith that leads to achievement. Nothing can be done without hope and confidence."

અંતમાં હું બહુ જ ધન્યતાની લાગણી અનુભવું છું કે મને Voice Of Xavier's માં મારા વિચારો અને યાદો તાજી કરવા માટે તક આપવામાં આવી.

Feast Day Celebration Primary

Saint Francis Xavier's Feast Day is a special occasion to remember and honor an important figure in Christianity, Saint Francis Xavier. The word “feast” comes from the Latin word festes, meaning joy, and symbolizes celebration. A feast day is observed to commemorate significant individuals or events in a religious context.

Saint Francis Xavier's Feast Day is celebrated on December 3rd each year. He was a missionary and a co-founder of the Jesuit Society. In 1542, Saint Francis Xavier traveled to Goa to spread Christianity among Portuguese settlers and the local people. Known for his devotion to the poor and the

Scriptures, he worked tirelessly to promote the faith. He passed away due to fever but left a lasting legacy. The feast honors his contributions to the advent of Christianity in Goa and his dedication to serving others. At our school, which has Saint Francis Xavier as its patron saint, we celebrate his feast day with great enthusiasm and reverence every year, recognizing his inspiring life and his mission.

SCI-BLAST 2.0 SCIENCE FAIR AT ST. XAVIER'S COLLEGE, NAVRANGPURA, AHMEDABAD

On December 12-13, 2024, our institution had the privilege of participating in the Sci-Blast 2.0 science fair at St. Xavier's College, a paradigmatic event that epitomized innovation, creativity, and scientific excellence. This phenomenal platform showcased the ingenious projects of young scientists and inventors, underscoring their passion for discovery and commitment to advancing scientific knowledge.

Key Highlights

- 1. Innovative Project Showcase:** Our school's participation in the fair was marked by an impressive display of 4 innovative projects, each meriting a certificate of participation. These projects demonstrated a high degree of scientific rigor, creativity, and technical proficiency.
- 2. Interdisciplinary Collaboration:** The event highlighted the significance of interdisciplinary collaboration, teamwork, and mentorship in fostering a culture of scientific inquiry and innovation. This approach facilitated the exchange of ideas, expertise, and perspectives, leading to novel solutions and discoveries.
- 3. Stimulating Environment:** The fair provided a stimulating environment for students to engage in intellectual discussions, share knowledge, and learn from one another's experiences. This peer-to-peer learning and networking opportunity helped to foster a sense of community and camaraderie among the participants.

Participating Projects and Team Members

- 1. Be Clean and Be Healthy:** Chaudhari Vraj V, Patel Bhagya S (Investigating the efficacy of natural disinfectants in promoting public health).

- 2. Hyperloop:** Raval Nevil H, Rathod Divyam C (Designing and optimizing a high-speed transportation system using vacuum-sealed tubes and magnetic levitation)

- 3. Gyroscopic Angular Motion:** Rajput Bhavyasinh B, Patel Henil N (Exploring the principles of gyroscopic motion and its applications in aerospace engineering)

- 4. Liquid Tree:** Jani Vrushti N, Patel Heli N (Investigating the potential of liquid-based systems for sustainable urban forestry and environmental conservation)

Special Recognition

We are proud to announce that our Principal, Rev. Fr. Arul Ryan, received a prestigious award as the Principal of a participating school. This recognition is a testament to his tireless efforts in promoting scientific excellence and innovation within our institution.

Conclusion

The Sci-Blast 2.0 science fair was a resounding triumph, showcasing the intellectual prowess and innovative spirit of our young scientists. We extend our warmest congratulations to the participating students on their outstanding achievements and encourage them to continue pursuing their scientific passions with unwavering dedication and enthusiasm.

Christmas Celebration Pre-Primary

Christmas is the festival which inspires the spirit of sharing and caring. The Christmas celebration in the pre-primary section of St. Xavier's School was held on 24th December 2024. All six classes and the porch were decorated beautifully and it brought smiles to children's faces. Christmas tree was decorated with lights and stars, crib was also made. The students performed and were dressed up as various characters like mother Mary, Joseph, the three Kings, Angels and shepherds. After that, six boys on their decorated cycle, accompanied by drummer boys, led the parade of students dressed in red and white.

They then visited the principal's office, where respected Father Arul encouraged all the students. Later, the children danced to Christmas songs. Our Christmas celebration was fun and joyful, and we look forward to many more enjoyable celebrations together. It was a wonderful way to introduce young children to the joy and spirit of the festive season. God bless us all.

Christmas is a time of joy, love, and giving, and its celebration in schools brings a festive spirit filled with excitement and happiness among students and teachers alike. The festival, celebrated on December 25th, marks the birth of Jesus Christ and is widely observed across the world with enthusiasm. Schools play a significant role in making this celebration memorable for children while teaching the values of togetherness, kindness, and sharing.

The festive mood begins days before Christmas as schools start preparing for the big day. Classrooms and hallways are beautifully decorated with Christmas trees, stars, bells, and fairy lights. Art and craft sessions are often held where students create handmade ornaments, greeting cards, and wreaths. Teachers encourage students to contribute to the decorations, promoting teamwork and creativity. The nativity scene, depicting the birth of Jesus Christ, is also set up in many schools, reminding students of the festival's origins.

On the day of the celebration, schools organize various activities and programs to engage students. Carol singing competitions, skits based on the story of Christmas, and dance performances fill the air with festive cheer.

Our school (St.Xavier's primary school) takes the celebration as an opportunity to teach students the importance of kindness and helping those in need. Charity drives, where students donate clothes, toys, and food, are often held to support underprivileged communities. This fosters a sense of compassion and empathy in children, teaching them the true spirit of Christmas.

The Magic of Christmas: A Festival of Love, Hope, and Togetherness

Christmas is a time of joy, love, and giving that holds deep meaning for people around the world. At its heart, the festival celebrates the birth of Jesus Christ, who is seen by Christians as a symbol of peace and salvation. However, the spirit of Christmas goes beyond religion, inspiring compassion, forgiveness, and generosity, bringing people closer to one another.

Across the globe, Christmas traditions are unique yet share common themes of love and togetherness. In Western countries like the United States and Europe, the holiday sparkles with carol singing, twinkling tree decorations, exchanging gifts, and delicious festive

meals. Customs like Santa Claus delivering presents, hanging stockings by the fireplace, and enjoying grand feasts with turkey, pies, and pudding make the season extra special.

In India, Christmas is celebrated by people of all backgrounds, uniting communities in festive cheer. Many join in the joyful activities of crib-making, carol singing, decorating homes, and attending Midnight Mass. Special treats like plum cakes and homemade sweets are shared with friends and neighbours, spreading happiness all around.

The joyous spirit of Christmas filled the air as St. Xavier's High School, Gandhinagar, celebrated the festival with a heartwarming and vibrant program. The event began with a serene and melodious prayer song, "On a Silent Night in Bethlehem," which beautifully set the tone for the celebration, reminding everyone of the miraculous night when a star shone bright, heralding the birth of Jesus Christ.

The students of Standard 9 delivered an impactful skit with a powerful message: **"Whatever you did for one of the least of these brothers and sisters of mine, you did it for me."** Their performance inspired the audience to embrace kindness and compassion in daily life.

Samarthya from Standard 11 captivated everyone with soulful solo songs, while another group of students enchanted the audience with a graceful dance on the song **"Hai Di Awaaz,"** a heartfelt celebration of the miraculous arrival of God incarnate into the world.

Adding to the festive spirit, the high school students performed melodious carol singing in Gujarati, Hindi, and English, showcasing the universal joy of Christmas.

Tirth from Standard 11 shared an inspiring Christmas message, emphasizing the importance of helping the needy and glorifying the name of God through our actions.

Rev. Fr. Arul and Rev. Fr. Patras enriched the celebration with their reflections on the true meaning of Christmas. They encouraged everyone to open their hearts to share joy with the lonely, hope with the weary, and love with all we meet, embodying the essence of the season.

The program concluded on a high note with a lively **"Jingle Bell"** dance, filling the hall with cheer and energy. The celebration left the students, teachers, and guests with a profound sense of joy, unity, and a renewed commitment to spreading love and hope in the world.

Christmas Charity

"Every charitable act is a stepping stone towards heaven". 'We' the students of 8th standard got the opportunity to become the little pebbles of Charity through the participation in the 'School Canteen Day'. It was celebrated in our school on 28 December with the motive to reach out to the less privileged ones. We were too excited as this was our first opportunity to work in groups for our school. We all whole heartedly put in a 100% with the support of our teachers and parents. Though we started it in a fun but by the end of the day we realized how necessary it is to remember those who do not have the opportunities like us. We are blessed with so many things in our lives. It is well said 'Alone we can do so little but together we can do so much'.

Charity plays an important role in our school, promoting a sense of community and compassion among students. Recently we organised a charity event to support underprivileged children and adults in our areas. Students actively participated by donating many necessary things. The students of first and second standard donated soap bars/powder. Just like that the students of standard third and fourth donated toothpaste and toothbrush. The students of class fifth and sixth donated rice and dal. The students of standard seventh and eighth donated tea and sugar. Donating brings joy and positivity. It helps to create a sense of community and makes you feel fulfilled. It helps you develop good relationships and feel good about helping others. I would like to thank the school for donating all these things to the underprivileged through us.

Charity is basically about helping others out when they need it. And it is a pleasure for us that our school organizes a charity event every year. The students are free to participate in the event and can donate money or things to the poor. This year the students of std. 7 and 8 donated tea and sugar, std.5 and 6 donated rice and dal, std 3 and 4 donated toothpaste and toothbrush and std. 1 and 2 donated soap bar and powder. We were happy to participate in such an event and would love to do so event in future too.

In the spirit of generosity and compassion, the students of Saint Xavier's School, Gandhinagar, embarked on a noble endeavor to make a positive impact on the lives of the underprivileged. Our Christmas Charity Drive, conducted under the motto "Grains of Kindness," was a resounding success, thanks to the unwavering support and generosity of our students.

Through this initiative, we encouraged each student from classes 9 to 12 to donate generously, and their response was overwhelming.

We collected a staggering amount of ₹26,000, which was utilized to procure essential provisions for the needy. Our procurement included:

- 50 liters of groundnut oil (10 boxes of 5 liters each)
- 50 kg of mung daal (5 packs of 10 kg each)
- 30...

Experiences of Eco Adventure Camp

We started our trip to Riparian resort , Savli at 7am . It was a journey of 3 hours. It was a serene place . We had a rustic view of river Mahisagar. Resort had a joyful park with vibrant swings , benches and also had many captivating spots for capturing moments. Next we played games which were quite fun. The instructor had notified us about coal mining in the forest which could make us feel like an earthquake. We had exciting rope activities. We also had rain dance and pool activities.

At night we had played some indoor games .We had a exciting track. Later then it was a bonfire. Next day we had morning track. It was a splendid experience. Afterwards we did rock climbing and rappelling . Then we saw a poisonous Cobra . The best time of trip was all of us dancing in bus . This was a very noteworthy experience of my school life.

We began our journey on the morning of 22 Dec '24 from the school heading towards the Riparian Adventure Camp Resort, situated on the bank of river Mahisagar, amidst the goodness of nature. The journey on the bus with peers and teachers is one of a kind and we reached our destination in no time. We started with an obstacle course followed by a rain dance and splashed into the swimming pool. On the second day, we woke up early for an unforgettable trek which made me fall in love with nature. The best part about it was the riverside, where we sat in the cool breeze, saw the river flowing peacefully and connected with nature in all senses. Our Memorable Trip to Riparian Resort

On the 22nd of December, the Nature Nurtures committee of our school embarked on an exciting trip to Riparian Resort, Vadodara. We gathered at the school by 6:30 AM and reached our destination by 9:00 AM. Upon arrival, we had a delicious breakfast and then engaged in fun games organized by an excellent instructor. After freshening up, we played more games before having lunch.

In the afternoon, we participated in thrilling adventure activities like rope climbing. The evening was even more exciting, with a refreshing swim in the pool and a lively rain dance session. Later, we played UNO, had dinner, and then set off for a night trek. Upon returning, we enjoyed a campfire where we sang traditional songs before heading to our rooms for the night.

The next morning, we went on a long trek near a coal mine. We were informed that slight tremors might be felt due to mining, but fortunately, there were no disruptions. After the trek, we took a group photo and admired the beauty of nature. Later, we enjoyed artificial wall climbing and gained valuable knowledge about snakes and greenery.

The trip was an unforgettable experience, filled with fun, adventure, and learning. We returned home with wonderful memories and a deeper appreciation for nature.

ગાંધીનગર જિલ્લાની પ્રતિષ્ઠિત શાળા સેન્ટ જેવિયર્સ હાઇસ્કૂલમાંથી તારીખ 22/12/24 અને 23/12/24 એમ બે દિવસ માટે ઇકો એન્ડ એડવેન્ચર કેમ્પનું આયોજન શાળાના આચાર્ય શ્રી ફાધર અરુલના નેતૃત્વ હેઠળ મહીસાગર નદીના કિનારે રીપેરીયન રિસોર્ટ ખાતે કરવામાં આવ્યું હતું.

નેચર નર્ચર્સ કમિટીના સભ્યો, વિદ્યાર્થીઓ તેમજ શાળાના આચાર્યશ્રીએ આ કુદરતી સાંનિધ્યનો અનુભવ લીધો હતો. પર્યાવરણ એ કુદરત દ્વારા આપણને આપેલી અમૂલ્ય ભેટ છે. આ કેમ્પનો મુખ્ય હેતુ એ જ હતો કે, વિદ્યાર્થીઓ કુદરતે આપેલ ભેટનું મૂલ્ય સમજે અને વધારે નજીકથી ઓળખે. આ કેમ્પમાં ઘણી બધી પ્રવૃત્તિઓ જેવી કે, જુદી-જુદી રમતો, જંગલ ટ્રેકિંગ, એડવેન્ચર્સ, સ્વિમિંગ પૂલ, રેઇન ડાન્સ, પર્યાવરણનું શિક્ષણ, કેમ્પ ફાયર, નાઈટ ટ્રેકિંગ, મોર્નિંગ ટ્રેકિંગ વગેરેનો સમાવેશ થાય છે.

મહીસાગર નદીના કિનારે કુદરતના સાંનિધ્યમાં અમે ધ્યાન ધર્યું હતું. તેમાં વહેતા પાણીનો ખડખડ અવાજ, પક્ષીઓનો મધુર કલરવ સાંભળવાનો અદ્ભુત અનુભવ થયો હતો.

ખરેખર મનને તાજગી અને આનંદ પમાડે તેવું વાતાવરણ હતું. આ રિસોર્ટમાં ઘણા બધા પ્રકારની વનસ્પતિ અમને જોવા મળી હતી. વિદ્યાર્થીઓ બધી જ પ્રવૃત્તિઓ ઉત્સાહપૂર્વક કરતા હતા આજની આ ભાગદોડ વાળી જિંદગીમાંથી અમને કુદરતના સાંનિધ્યમાં જવાનો મોકો મળ્યો તે માટે અમે ભાગ્યશાળી છીએ.

Unfamiliar shores, unknown faces and unabated travel schedules have always been uncomfortable for me. However, the excitement and the learning they bring opens up new avenues of knowledge and make all the uncertainties worthwhile. National Children's Science Congress (NCSC) is a nationwide Science Communication programme started in the year 1993. I have had the privilege to participate in the capacity of one of the guide teachers from Gujarat.

The three days programs excluding the travel to and fro to Bhopal has been enriching for the students and I believe that it has tested their abilities and it has encouraged them to explore their full potential. There were various sessions with inputs from experts on different themes such as 'mental health for holistic well being' 'efficient multitasking' etc.

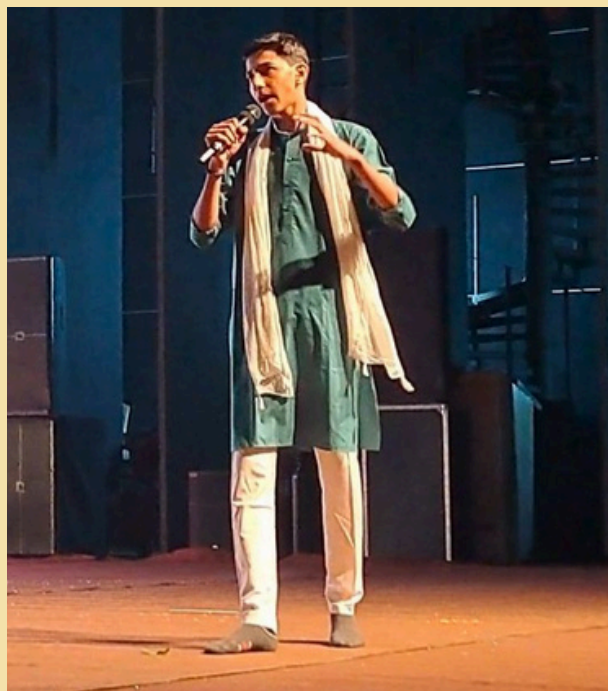

The cultural exposure to the students as they interacted with students from other states of India benefited them immensely. It is said that when knowledge is shared, it multiplies. I felt personally and I am confident that the students have experienced that spark that ignites them and remains within them lifelong.

At Zonal Level Science Fair

Myself Rajput Bhavyasinh from class 9 th A would like to share you my experience of the zonal level science fair which is held at C G Mehta school ,Idar. There were two models selected for this zonal level science fair. They are gyroscopic angular motion by me and my partner Henil Patel from class 9A and the other model was hyperloop by Raval Nevil and Rathod Divyam from class 9B. This exhibition was held at CG Mehta School, Umedgarh, Ider for 2 days. The residential and food facilities over there were excellent. The exhibition was fantastic and a two learning experience. We have also come to know about the different point of view on our models during the exhibition.

There were 8 districts that had participated in this north zonal level exhibition which included major districts like Ahmedabad, Mehsana and Patan. Among all of the models our model gyroscopic angular motion has been selected for the state level exhibition in the category of mathematical modelling and computational thinking. This is the result of the valuable suggestions by our guide teacher Rikin sir and the co-opration of our class teacher Smita Ma'am. I would also like to thank father for the guidance and support in our journey.

Participation at District Level Science Fair

Myself Nevil Raval from class 9th B participated in District Level Science Exhibition held at Balva Gandhinagar district. Me and my teammate Divyam Rathod were selected from the SVS School Level for our project on Hyperloop. The exhibition was held from 9th December to 11th December at Shree Swaminarayan High School Balva.

On 9th December, we did the registration and was provided with a table in one of the classrooms. The school had a very pleasant environment and provided us with a special team of NCC cadets to protect our belongings and also to give assistance when needed. There were many innovative ideas selected for district level. We had selected the field of Transport and Communication, our project topic was Hyperloop.

By hyperloop we can make the travel experience more smoother and faster. There were many competitors but due to our efforts, presentation, model and guidance of teachers we were selected for Zonal Level.

As Swaminarayan School provided food which was delicious, and also the guide teachers for assistance. During the break time I explored the different innovative ideas from which i gained knowledge. My experience was excellent and I also got exposure from the exhibition. By this wonderful experience I would also like to participate in more exhibitions in future.

The District Education and Training Centre, Gandhinagar, organized a district-level science exhibition with the aim of nurturing young scientists for the future. The event took place on the 10th and 11th of December at Swaminarayan High School, Balva. Students from St. Xavier's High School, Gandhinagar, enthusiastically participated in the event, showcasing their innovative working models and charts under the theme of a sustainable future.

Four teams from Class 9 represented the school:

1. 9A: Gyroscopic Angular Motion – Bhavyasinh Rajput & Henil Patel
2. 9A: Liquid Tree – Jani Vrushti & Patel Heli
3. 9B: Hyperloop – Raval Nevil & Rathod Divyam
4. 9C: Be Clean, Be Healthy – Chaudhary Vraj & Patel Bhagya

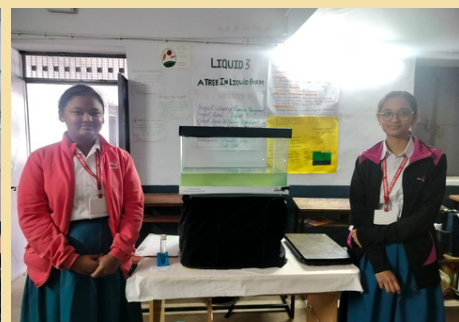

The exhibition was a memorable experience, fostering interaction with students from other schools. Participants received certificates and prizes, and our school was honored with a memento.

Notably, Gyroscopic Angular Motion and Hyperloop projects were selected for the zone-level competition. We take immense pride in our students and wish them success in the next round. Congratulations to all!

**“All our dreams can come true,
if we have the courage to pursue them”**

Myself, Ms. Archana Sharma joined this reputed school (St. Xavier's, Gandhinagar) in the year 2013. I have been in this school since June 2013 and have completed almost eleven years. In these eleven years of my career, I always believe that to bring about change, you must not be afraid to take the first step. I always try my level best to never fail in my teaching.

Each day, I come in the school with a positive attitude always trying to get better. I see my children and always think that in this journey we should always be determined. I always strive to maintain a sunny outlook which means I embrace optimism. I believe in my abilities and surely the outcome will be fruitful. I see the glass as half full and not half empty. Teaching is my passion and will continue on my future.

Next, if I say it would be about relationship with my colleagues... I always try to be friendly with them. My focus always remain to be cooperative and helpful. I try to complete my work with full zeal. I love to be with them as a family.. I think that is why it's called Xavier's parivaar.

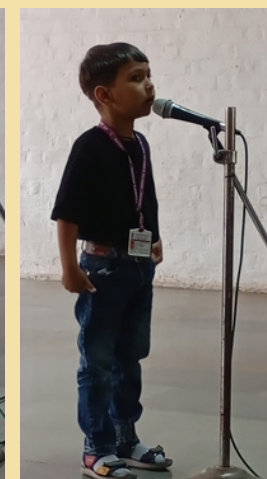

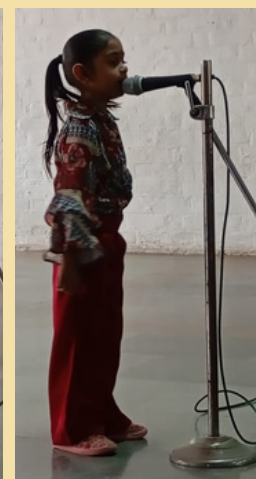

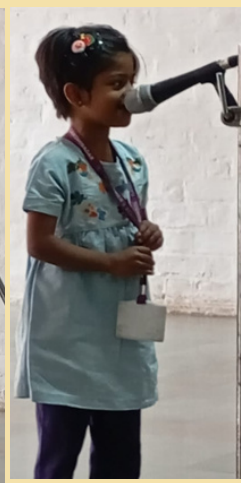

At last, I would only say that,
“Positive thinking will let you do
everything better than negative thinking
will.... “

Thankyou

God's House Address

Once upon a time, there lived a poor priest with his wife, old mother and children. They were a pious family. He performed prayers to the Lord with all faith. He lived a simple happy life. Every morning, the priest woke up early and after his bath, performed his prayers at home and rushed to the temple to complete his priestly duties. His mellifluous voice carried away every other devotee to God's own kingdom. His caring nature and sweet words bestowed strength to those coming to temple in grief. He shared his daily earnings with the beggars. His devotion to God was as strong as a rock pillar. His good nature gave him a peaceful sleep every night. As things moved on, one night, God appeared in his dream and said, "Son, you have been serving Me honestly so far. I have been living with you peacefully. But now, I have to take leave of you for certain untold reasons. "Ask for a boon and I shall grant it." Saying so, God disappeared. The priest woke up immediately and understood it to be a dream. Still he kept pondering over it. The next morning, he narrated the dream to his wife and mother. His wife suggested for a happy life, both physically and financially. But his old mother said, "Gold and riches are materialistic. Do not crave for them. When God is with us, we do not have any quarrels or difficulties. We have been leading a peaceful life. So ask Him to grant you a peaceful life." The simple priest was happy with the reply and waited for his chance to convey it to God. The same night God appeared again in the priest's dream. He asked, " Son, tell Me your want." The priest replied, "God, please grant us a peaceful & contented life." And lo, the Lord uttered, "Peace is what I love and a peaceful home with no quarrels is where I live. Do not worry, I shall never leave you."

Reflect in life and you will realise that wish and fear are exactly the same, we call such a dream a nightmare. Remember don't let people pull you into there storm gather courage and pull them into your peace. The irony of life is as we grow we change and as we change we grow a vicious cycle of life. Life is all about the words we speak because that creates house we live in. Don't mistake Successful living to accumulating material things, it means inner peace of mind; it means that gift of being able to adjust oneself to everyone else. Instead of figuring out how to make ends meet, work on having fewer ends. Lets go ahead in life and become rich by having time and thats possible by having stuff that truly matters, lets not spend more time taking care of materialistic possessions and focus on our internal body and mind because buying things gives us a false sense of control. True power is realizing you don't need much.

Reflection by Dr. Anjana

બધું ભૂલવા માંગતા મને,
 બધું યાદ આવે છે કેમ?
 જરૂર પડે ત્યારે બધું,
 ખોવાઈ જાય છે કેમ?
 જાણે ઉઠાવી હાથમાં રેતી,
 સરકી સમય જેમ જાય છે
 જે બધું ન જોઈતું હોય,
 તે સૌથી પહેલાં થાય છે .
 એવું કેમ થાય છે ?
 રમતમાં હું ફરી રહી છું,
 અડધો સમય ખબર જ નથી કે
 હું શું કરી રહી છું.
 મને સમજાતું નથી,
 આવું છું કંઈ કરું છું- જાઉં છું.
 ફરક કંઈ પડતો જ નથી.
 જ્યાં હતી પહેલા ,
 ત્યાં ફરી પહોંચી જાઉં છું.
 જે યાદ રહેવું જોઈએ,
 આમ બધું ભૂલી જાઉં છું .
 હું જ્યાં જાઉં છું?
